**Mission San Juan Capistrano**
Cottage Court at Camino Capistrano, SANTE FE. Founded November 1, 1776, the Mission is the seventh in the California mission chain and the third under San Juan Capistrano’s historic downtown. The “Jewel of the Missions” occupies a ten acre site and includes the beautiful central nave and numerous museum rooms devoted to displaying the Spanish and Prehistoric Era life. Serra Chapel, one of the oldest buildings in California, and the ruins of the Great Stone Church are also located within the Mission gates. Entrance fee.

**Capistrano Depot**
End of Ward Street, 1842-1885. This red brick, double-storied railroad station was built in 1844 by the Santa Fe Railroad and is one of the oldest Mission style railroad stations in Southern California. At the time of its completion in 1894 the Depot served as the freight depot on the Santa Fe line.

**Los Rios Historic District**
Spanish through Eastern American Era - The Los Rios Historic District includes 51 historic structures which line both sides of Los Rios Street between Del Obispo and Mission Streets. The District comprises the oldest continuously occupied residential street in California and includes adobe houses built in 1794 as housing for friars with duties to the Mission. The majority of the area’s earliest structures, and the buildings of later periods, makes this District truly unique. The district during this period became a center for commerce and industry and a focus of social, cultural, and political life for the area.

**Rice Adobe**
12512 Los Rios St., SANTE FE. The Rice Adobe is still home to the Rice family (100th generation) and is the oldest residence in California continuously occupied by a single family. The family has been in the weaving and draw-wool trade since the 1820s. The Adobe consists of a one-story structure with a gable roof, and is a fine example of the traditional adobe architecture.

**Garcia Adobe**
11851 Camino Capistrano, Camino Capistrano Historic District. This 1840’s adobe house is typical of early adobe houses in Southern California. The adobe is constructed of adobe bricks that were handmade by the Garcia family.

**Verga Adobe**
11851 El Camino Real, SANTE FE. The Verga Adobe was built in 1843 and is one of the oldest adobe structures in Southern California. The house is a two-story adobe structure with a gable roof and is a fine example of the traditional adobe architecture.

**Bela Aaga Adobe**
11840 El Camino Real, SANTE FE. The Bela Aaga Adobe is one of the oldest adobe structures in Southern California. The house is a two-story adobe structure with a gable roof and is a fine example of the traditional adobe architecture.

**Ferris-Kelly Buildings**
11840 El Camino Capistrano, 20th Century. The group of three buildings, <1850s, are among structures. All three have distinctive facades, featuring a variety of materials, and were built between 1850 and 1870. The structures feature a variety of materials, including wood, brick, and stucco, and have distinctive facades featuring decorative elements such as cornices and pediments. The Ferris-Kelly buildings were placed on a short strip, where they stand out and are visible in the landscape.

**Stevenson House**
El Camino Real, 20th Century. This 1857 single-story adobe house was originally built by Carl and Fred Stevenson for their home and business. The house was later expanded and remodeled, and is now a museum and tourist attraction.

**Kinnard-Binns House**
11851 El Camino Real, 20th Century. This house is one of the oldest adobe structures in Southern California and is a fine example of the traditional adobe architecture.

**Rice Adobe**
12512 Los Rios St., SANTE FE. The Rice Adobe is still home to the Rice family (100th generation) and is the oldest residence in California continuously occupied by a single family. The family has been in the weaving and draw-wool trade since the 1820s. The Adobe consists of a one-story structure with a gable roof, and is a fine example of the traditional adobe architecture.

**Garcia Adobe**
11851 Camino Capistrano, Camino Capistrano Historic District. This 1840’s adobe house is typical of early adobe houses in Southern California. The adobe is constructed of adobe bricks that were handmade by the Garcia family.

**Verga Adobe**
11851 El Camino Real, SANTE FE. The Verga Adobe was built in 1843 and is one of the oldest adobe structures in Southern California. The house is a two-story adobe structure with a gable roof and is a fine example of the traditional adobe architecture.

**Bela Aaga Adobe**
11840 El Camino Real, SANTE FE. The Bela Aaga Adobe is one of the oldest adobe structures in Southern California. The house is a two-story adobe structure with a gable roof and is a fine example of the traditional adobe architecture.

**Ferris-Kelly Buildings**
11840 El Camino Capistrano, 20th Century. The group of three buildings, c.1850s, are among structures. All three have distinctive facades, featuring a variety of materials, and were built between 1850 and 1870. The structures feature a variety of materials, including wood, brick, and stucco, and have distinctive facades featuring decorative elements such as cornices and pediments. The Ferris-Kelly buildings were placed on a short strip, where they stand out and are visible in the landscape.
